

## PRODUCT PROFILE

### Easy Cut 4000

#### Description:

*If safety is your #1 concern, this is the ultimate safety knife for you!*

Easy-Cut 4000 offers patented "blade vanishing technology," enabling the blade to instantly retract inside the unit when cutting stops – protecting the user every time! This knife also offers a patented radius-blunt tip blade and multiple blade-depth settings to easily slice through any cardboard box. A slight increase in blade length was added to this knife to accommodate special applications of heavier boxes. A gentle squeeze of the ergonomic handle extends the blade naturally, reducing repetitive thumb motion injury common with other box cutters. The convenient edge guide enables clean accurate top cuts, and slides back into locked position when cutting is complete. A unique snap-on lanyard and holster with 360-degree rotation ensure secure placement on a belt loop – reducing injury and down-time looking for lost cutters. On-board storage for back-up blades ensures quick and easy blade changes! Sturdy, lightweight and always reliable, Easy-Cut 4000 is the safest box cutter you'll ever buy!

#### Tech Specs:

Use:	Opening/cutting boxes
Materials:	97% nylon, 3% glass fiber
Mechanism:	Carbon Steel (spring) heat treated
Dial:	Metal shaft steel, plastic/nylon coated
Color(s):	Unit and handle (Two tone grey)
